Hi [firstname]

Thank you for attending the webinar for **The Six-Figure Investing Plan with Residential Assisted Living (RAL)**.

It was great having you there!

How did you like the event?

We always get a lot of great feedback when Gene talks about all the wonderful opportunities with Residential Assisted Living.

I'm sure you have many ideas percolating in your head right now.

It was indeed a lot of information about RAL potential and asset protection, right?

I hope I didn't scare you too much with all those stories about investors losing everything because they didn't have their real estate assets protecting them the best way possible.

As mentioned at the event, **insurance isn't enough to protect you.**

When it comes to real estate investing—especially with RAL—you need more insulation from outside threats.

With an entity structure (i.e., LLC, Corp, etc.), you shield yourself from lawsuits and other unexpected events.

This is why we put together the [RAL Success Education Package Today](#) for investors like you.

You cannot overlook this advantage. It's essential to "keep your head on your shoulders," as they say.

You don't want to make a big investment... build out your RAL... have residents coming by the truckload...

...only to find out that some snoop lawyer is following your paper trail, ready to slap you with some frivolous lawsuit.

Even if you did nothing wrong, it's still a hassle that will cost you money. I guess that's why they call these lawsuits frivolous, right?

Look, I don't want to take too much more of your time.

I appreciate you joining Gene and me at this event.

This is why I took the extra steps to give you a real estate protection package that you are NOT going to find anywhere else.

[Click this link to discover](#) how you can protect your valuable RAL real estate and business before you pour a lot of money into them.

Check it out now before we take the page down.

Thanks again for joining us today and enjoy the rest of your weekend.

Kind regards,

Hi [firstname]

Thank you for joining us at yesterday's event.

You are a big reason why we had such a fantastic turnout.

To be quite honest, I wasn't surprised.

Residential Assisted Living is a great investment opportunity, and Gene is a great teacher and guide.

What really surprised me was how many people purchased [the RAL \(Residential Assisted Living\) Success Education Package](#).

I guess I shouldn't be surprised because wise investors know that there are risks in real estate investing.

There's probably even more risk when it comes to Residential Assisted Living (RAL). You have many players to deal with. You have property owners, sellers, property managers, employees, and residents.

You could have a deal go bad... employees having accidents... or residents having a fall.

Don't get me wrong!

I think **RAL is a super fantastic investing opportunity**.

And Gene's right.

This investment opportunity is THE best real estate opportunity for decades to come.

But you do need to know that there are risks.

The good news is that you can easily protect yourself against those risks.

And you don't have to be a lawyer like me to protect your assets.

I've put everything you need for worry-free RAL investing into an excellent little package that I call [RAL Success Education Package](#).

You can get it now while it's still online.

I recommend you look at this now because this offer won't be around for long.

Happy investing!

P.S. We don't offer this [RAL Success Education Package](#) to just anyone. This is our appreciation for you taking the time and making a commitment to learning more about how you can create a six-figure future for yourself.
